

Serial No. 10/660,544

-2-

Docket No. 4208-4144

Response to June 13, 2007 Final Office Action

(b) ~~(b)~~ determining through the first short-range communications link by a wireless communicating device (WCD) through a first short-range communications link of a first type whether the a-remote device is capable of supporting communications over a second short-range communications link through a second short-range communications interface, the second short-range communications interface operating according to a second short-range communications protocol; a short-range communications link of a second type and

(c) ~~(b)~~ exchanging information by the WCD with the remote device across the first communications link to establish the a-second short-range communications link between the WCD and the remote device if step (b) determines that the remote device is capable of supporting communications over the second short-range communications link; wherein the second short-range communications link is of the second type.

(d) activating the second short-range communications interface to establish the second short-range communications link with the remote device based on the information exchanged across the first short-range communications link, and

(e) controlling transmissions of the first and second communication links to operate in a scheduled manner.
